

UI/UX DESIGN BRIEF

Carbon Horizon

Learn Your Impact. Shape the Future.

Version 1.0

1. Design Vision

Carbon Horizon should feel like:

"Google Earth + Tesla Dashboard + Sustainability Intelligence Platform"

The experience should communicate:

- Environmental awareness
- Data intelligence
- Future forecasting
- Actionable sustainability
- Trust and credibility

The platform should not look like a school project.

It should feel like a modern climate-tech startup product.

2. Design Personality

Brand Attributes

- Intelligent
- Sustainable
- Futuristic
- Trustworthy
- Human-Centered
- Data-Driven

Emotional Response

Users should feel:

- Curious
 - Empowered
 - In Control
 - Hopeful
 - Responsible
-

3. Visual Theme

Primary Theme

EARTH INTELLIGENCE

Instead of:

 Generic nature

Use:

 Living Earth + Data + Future

Combine:

- Planet imagery
 - Organic shapes
 - Sustainability visuals
 - Data visualizations
 - AI elements
-

4. Color System

Primary Color

Earth Green

2ECC71

Secondary Color

Forest Green

1B5E20

Accent Color

Eco Lime

A3E635

Dark Background

Space Black

08121E

Card Background

Deep Ocean Blue

0F172A

Success Color

22C55E

Warning Color

F59E0B

Danger Color

5. Typography

Headings

Poppins

Bold

Clean

Body Text

Inter

Readable

Professional

Dashboard Numbers

Montserrat

SemiBold

6. Design Language

Use:

Rounded Corners

20px Radius

Glassmorphism

Soft Shadows

Gradient Backgrounds

Floating Cards

Large Visual Hierarchy

Generous White Space

Micro Animations

Avoid:

Heavy Borders

Table-heavy Layouts

Too Much Text

Bright White Backgrounds

Traditional Corporate Styling

7. Landing Page Design

Hero Section

Left Side:

Headline

"Understand Your Impact. Shape a Better Future."

Subheading:

Track, simulate and reduce your carbon footprint using AI-powered sustainability intelligence.

CTA Buttons:

Start Assessment

Explore Demo

Right Side

Animated Earth Visualization

Earth surrounded by:

- Trees
 - Data Points
 - Carbon Indicators
 - Sustainability Icons
-

Background

Dark gradient

Space → Earth green

8. Navigation

Top Navigation

Screen Reader Support

High Contrast Mode

Scalable Text

Color Blind Friendly Charts

18. Illustration Style

Use:

Earth

Leaves

Clouds

Renewable Energy

Wind Turbines

Solar Panels

Data Networks

AI Elements

Global Sustainability

Avoid:

Clipart

Cartoons

Generic Stock Icons

19. Recommended UI Inspiration

Tesla Dashboard

Google Earth

Stripe Dashboard

Vercel

Linear

Notion

Arc Browser

Apple Environmental Pages

20. Desired User Experience

The user journey should feel like:

"I discovered my environmental impact."

↓

"I understand what causes it."

↓

"I can see how to improve it."

↓

"I know exactly what actions matter."

↓

"I can track my progress."

"I can visualize a greener future."

Carbon Horizon should feel less like a calculator and more like a personal sustainability intelligence platform.
